8/5, 10:25 am:

We can try to use Adobe connect, I have the window open now:
<https://epa.connectsolutions.com/pkgw/>

Ravi, you may need to log in for me to pass control to you.

The comment doc now has numbered bullets, per Ravi's request. Document name now ends in .numbered.

The Appendix now has Ghazzi's bubbles. Both revised pieces should be just below!

8/5: Ravi's annotation on the comments document ***should*** be attached just below. I can see it there. Hopefully you all can too, now.

8/2: I've cleaned up the 'comments' piece a bit, but added some text and a figure. I've highlighted the comments that seem most significant that we might want to discuss, but if I've missed some that others think are key, please let me know.

8/1:

And adding Allan Marcus, suggested by Ravi since Allan was an SWG reviewer.

Extending the mtg by 30 min as Paul W also wanted to continue discussion of endogenous HCHO.

I suggest this be 'brown bag' (bring your lunch), given the time.

Adding Todd Blessinger to invitation; John Fox was already included as optional.

Adding PYN 7661 for DC folks.

Attaching 'combined' comments doc.

7/31: Attaching documents with 'bubbles' from Alan and I, combined. The separate 'comments' piece should be ready later today.

For the proposed day/time, only Hui Min is not available, but I hope that's OK since the ADME discussion is on Wednesday. Otherwise this looks like the only really open spot next week!
